

New Jersey Trackcar Excursions June 1-2, 2019 Delaware-Lackawanna Railroad (Pennsylvania)

New Jersey Trackcar Excursions is pleased to announce a 2-day, approximately 125 mile run over the Delaware-Lackawanna Railroad.

On Saturday we will have an early set-on in Scranton, (starting at 5:30AM), and the safety meeting will be at 07:00 am, as we must leave by 7:15 AM. We will head east on the D&L through beautiful countryside, along the river, through at least one tunnel, past many restored stations through places with names like Tobyhanna, Gouldsboro, Moscow as we head for the Delaware Water Gap. We will make a lunch stop at Stroudsburg, and have been told that the Stroudsburg Tower will be opened for us there as well. We will make our turn at Point of Gap, and return again through the breathtaking Pennsylvania countryside traveling the route of the 'Phoebe Snow'. Truly a great day on the rails that awaits us!

Saturday evening the cars will stay on track for an early departure Sunday morning (7:30AM) on the Laurel Trolley Line for an interesting trip back thru history. This is the first time that we have had the opportunity to ride the Laurel Trolley Line since 2014. Don't miss this opportunity to experience this very unique line. Though a relatively short run, it includes a trip through a 4900 ft. tunnel as we travel over this line. We will also go up the double switch back track. We will turn at the trolley barn at the end of the line, and expect to return no later than 10:00 AM, leaving plenty of time to visit the Historic Steamtown Railroad Museum, and still get an early departure for home.

The price of the excursion is \$285. There is a 35 car limit and a non-mentoring run. As usual, this is a NARCOA insured excursion. All applicable NARCOA rules apply, as well as any others required by the railroad. Cars and paperwork will be checked/inspected, and those not up to standard may be refused permission to set-on. Safety meeting must be attended as well.

Equipment Restrictions/Requirements: safety vests, hard soled over ankle shoes; hi-rails and heavy cars are with permission only. Radios are strongly encouraged. Cars must be able to be easily turned, and must be reliable. You must be able to maintain 25 MPH on this run. We will be interfacing with train traffic, so breakdowns cannot be afforded. Well behaved children over 10 years old are welcome.
